Profile:

Recently completed the Coding Dojo 14 week immersive bootcamp, which enhanced my skills with MEAN, Python, and Ruby. Interested in gaining more exposure to and learning about Front-End and Full-Stack technologies. Looking to be an integral part of a development team by paying close attention to the needs each application that will be our responsibility, and delivering work that can be easily maintained and is effective and scalable.

Technical Skills:

- **Front-End:** HTML5, CSS3, J-Query, Angular, AJAX, JSON, Materialize, Bootstrap
- **Languages:** Javascript, Ruby, Python
- **Databases:** SQL(MySQL, SQLite, SQL Server), NoSQL(MongoDB), Mongoose, PostgreSQL
- **Servers:** NodeJS, Apache
- **Frameworks:** Express, Flask, Sockets
- **Methodology:** OOP - Object Oriented Programming, MVC, RESTful Architecture
- **Extra:** Git/Github, API(s), RSpec (TDD)

Projects

Foodie

Technologies: Python, MySQL, Apache, HTML, CSS/Materialize, J-Query, Twitter-widgets

Summary: This interactive web application allows users to select multiple food preferences and gain more knowledge about different dishes concerning their selections

TennisDraws

Technologies: Javascript, HTML, AngularJS, Express, MongoDB, Mongoose, NodeJS, Materialize

Summary: Web Application that creates bracket-style tournaments for the user, in which the user can create and remove other users from the draws of the tournament

CalendMe

Technologies: HTML, CSS, Ruby, Rails, PostgreSQL, RSpec, Capybara

Summary: Calendar application that users can use to add/delete events to their day and send email notification if they choose to have an additional reminder

Opportunity Works

Technologies: Javascript, HTML, CSS, AngularJS, Express, MongoDB, Mongoose, NodeJS

Summary: Job Board app that allows small businesses to post small jobs aimed towards homeless people for cash or gift-card compensation

Education/Experience

Hack The Homeless Hackathon (Sept '16)

-Spent 24 hours building a MEAN project called Opportunity Works- an application aimed towards the homeless population that gives small business the chance to post small jobs on this site that can be completed by the people for cash compensation

Coding Dojo (May '16)

Professional Tennis Instructor (May '14- Present)

-Increased participation in Future Slammers (ages 4-6) and Junior Aces (ages 7-12) by keeping students engaged and regularly talking to perspective clients about the program

-Reduced complaints by 50% in Future Slammers and Junior Aces by addressing potential issues to participants before they grew into actual problems
